EXPERIENCE

Configuration Analyst

Jun 2015 - Present

Wells Fargo, Charlotte, NC

- Implemented business logic in 3rd-party software through administrative configuration portal
- Developed web-based tool to assist in daily configuration migrations from dev to test environments

Software Developer

Jan 2015 – Present

Dublin Solutions, Charlotte, NC

- Full stack web developer on 4 person dev team that migrated a PHP/PostgreSQL 8.1 web application to ASP.NET MVC 5/SQL Server 2012.
- The application was targeted to handle 25,000 players and up to 1,000 concurrent connections

Quality Assurance Analyst

Feb 2014 – Jan 2015

Velocitor Solutions, Charlotte, NC

- Wrote and executed test plans for web and native applications running on Windows Mobile and iOS
- Participated in Agile Scrum development process to bring new fleet management web application to market
- Selected for one-on-one client beta testing to repair a struggling relationship with the client

Software Associate

Nov 2012 – Jul 2013

Mitrates Holdings, Inc., Austin, TX

- Developed patches for enterprise legal-matter management software written in Java
- Assisted version control migration from IBM Rational UCM to Subversion and refactored PERL scripts and batch files that governed the automated build process

Quality Assurance Analyst

Feb 2012 – Nov 2012

Mitrates Holdings, Inc., Austin, TX

- Designed and implemented test plans to verify value and prove integrity of software enhancements
- Reproduced defects as part of root cause analysis
- Selected as build manager. Released builds to QA for testing and handled production deployments.
